

# NONCOMMISSIONED OFFICERS WORKSHOP

SGM LOYD TAYLOR  
ARMY CENTER OF  
EXCELLENCE, SUBSISTENCE

# AGENDA

- FOOD SERVICE LOOK AT FEEDING THE IBCT AND IDIV
- DA PHILIP A. CONNELLY AWARD PROGRAM UPDATE
- 92G ASSIGNMENT BRANCH MANAGER ASSIGNMENT BRIEF

# *Force Characteristics*

Each characteristic is important but their interaction and synergy within

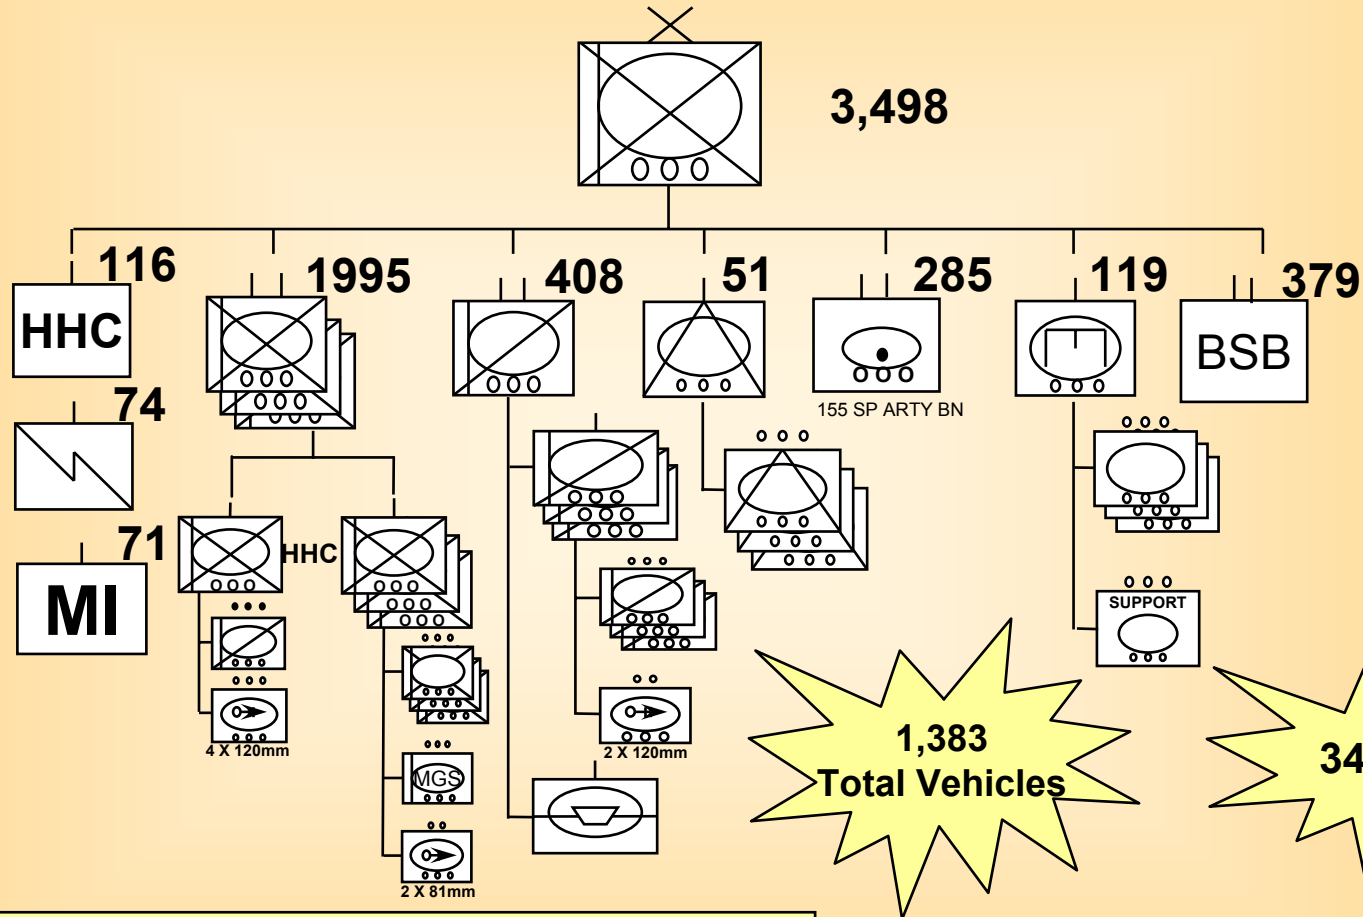

**Full  
Spectrum  
Dominance**

**A Combat Ready Brigade in 96 hrs, a Division in 120 hrs, and five Divisions in 30 days.**

***The Objective Force Characteristics are Essential to  
Full Spectrum Dominance***

# Interim Brigade Combat Team

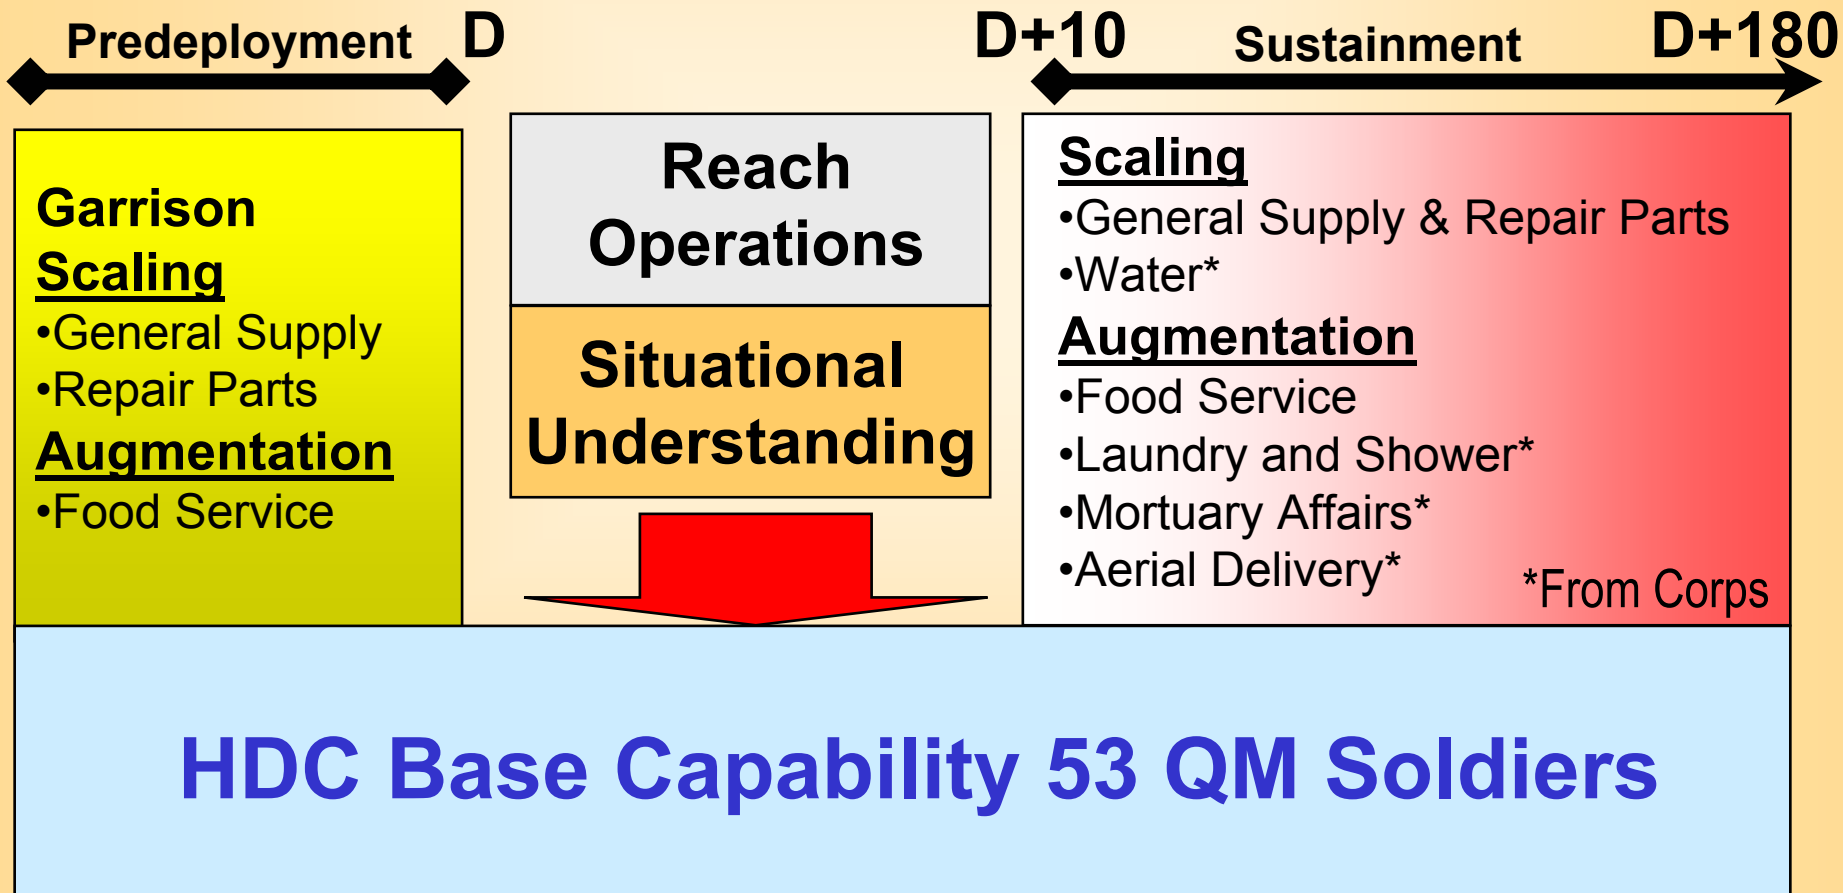

- Enters in a permissive or semi-permissive environment.
- Optimized for SASO to SSC level operations; can conduct operations in MTW with augmentation.
- Part of a division.
- Deploys with an ARFOR HQ.

**Our Challenge: Providing support with reduced footprint until augmentation arrives after D+10 (METT-T dependent)**

***The Solution: ...Filling the Gap***

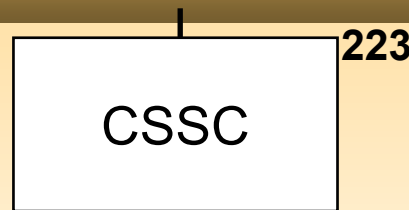

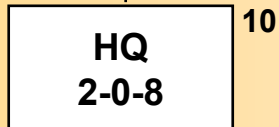

# Approved CSSC

Modular, multi-functional augmentation in garrison and on operations

Additional support from contractors in Garrison (some on operations)

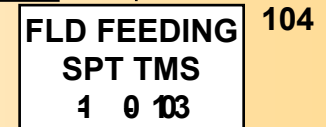

Cmd Elm:  
Co Cdr  
1SG  
Supply Sgt  
NBC NCO  
NBC Spec  
Armorer  
Medical Tmt Tm (4)

2 - Plt HQs  
16 - 92A - Supply  
12 - 88M - Trans  
6 - HEMTT-LHS  
w/PLS Trailers

5 - Techs  
4 - Maint Mgmt  
16 - 2x Pulse Teams  
38 - WHL/ELM/GSE

Food Svc Tms  
- Tailored for  
Support Units

RACS, LOGCAP and reach  
for operations (METT-TC)

## Rationale

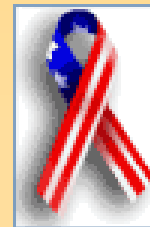

- Sustainment for extended operations
- Distribution support for Class V
- Adds cooks to IBCT
- Improves maintenance capability

- No personnel movement
- No air medevac

**Support Starts Here!**

# Cook Breakdown

			Para 2	Para 3 (x3)	Para 4	Para 5	
SR FOOD OPNS MGMT NCO	E7	92G40	1	1	1	1	
SR FIRST COOK	E6	92G30	2	2	1	2	
COOK	E5	92G20	3	4	2	3	
COOK	E4	92G10	7	7	3	5	
COOK	E3	92G10	5	6	3	4	
Paragraph Total			18	20	10	15	103

- Paragraph 2 = Brigade and RSTA
- Paragraph 3 = Infantry (x3)
- Paragraph 4 = Field Artillery
- Paragraph 5 = Brigade Support Battalion

TWO INTERIM BRIGADE COMBAT TEAMS AT FT. LEWIS, WASHINGTON:

**THE 3RD BRIGADE, 2ND INFANTRY DIVISION**

**THE 1<sup>ST</sup> BRIGADE, 25TH INFANTRY DIVISION**

THE NEXT BRIGADES TO TRANSFORM WILL BE:

**THE 172<sup>ND</sup> INFANTRY BRIGADE, FORTS RICHARDSON AND WAINWRIGHT, ALASKA;**

**THE 2ND ARMORED CAVALRY REGIMENT (LIGHT), FORT POLK, LOUISIANA;**

**THE 2ND BRIGADE, 25TH INFANTRY DIVISION (LIGHT), SCHOFIELD BARRACKS, HAWAII;**

**THE 56TH BRIGADE OF THE 28TH INFANTRY DIVISION (MECH), PENNSYLVANIA ARMY NATIONAL GUARD.**

## Field Feeding Concept of Support,

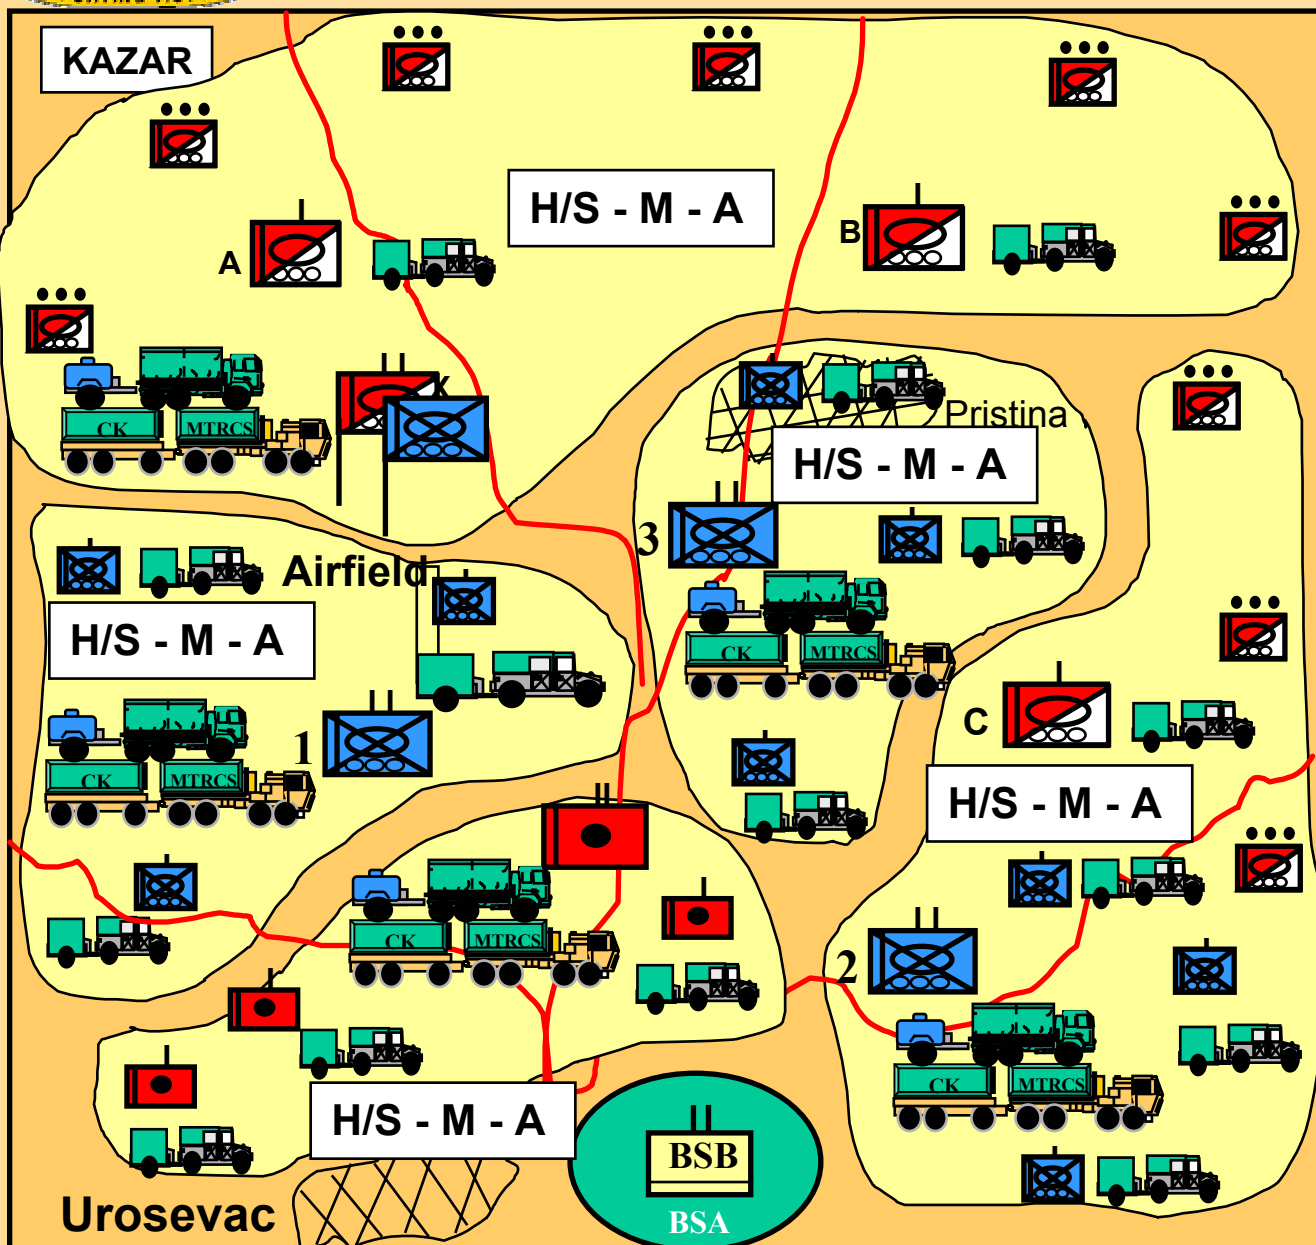

CK (6)

KCLFF (20)

Cooks (103)

### Ration Cycle :

- UGR H/S and UGR A to all units

### Ration Cycle :

H/S - M - A

### Concept of Support:

KCLFF provides FWD feeding at Company level, supported by CK at BN

All company size units assigned KCLFFs and BNs are assigned CKs

### Advantages:

- Meets Army Field Feeding standard
- Entire BDE on same ration cycle
- Field feeding operation de-centralized to BN level

# *Sustain the Force* *CL I and Food Service Support*

## IBCT Requires

RATION CYCLE D-D+10

**M-M-M**

RATION CYCLE D+10-

**M-M-UGR**

UGR-HS/A, MREs,  
Supplements and Health  
and Comfort Packs

## IBCT Carries

**3 DOS**

Based on  
current Army  
Field Feeding  
Policy and the  
Office of the  
Surgeon General  
Policy

## BSB Provides

- Company Level Unit  
Configured Loads of MREs  
only until augmented
- Trans Platoon delivers  
MREs every 2-3 days
- Food Service must be  
operational by D+20

## BSB Capability

### General Supply Section

- Receives, stores, and  
issues up to 35 STs total  
per day of classes I, II, IIIP,  
IV, and VII.
- Consists of 8 92As,  
3 MTVs, 2 Atlas Forklifts,  
& 2 ISU 90s

1 DOS MRE

**13.8 STs**

1 DOS M-M-UGR

**15.2 STONS**

*MRE's can be  
sole source of nutrition  
for up to 21 days.*

# ***Sustain the Force CL I and Food Service Support***

## **What's Different**

- ➔ No organic cooks
- ➔ Augmentation, military or other, arrives and is operational by D+20

## **Risks**

- ✓ UCLs pushed every 2 days
- ✓ Availability of augmentation for food service

## **Enablers**

- ✓ Mounted Water Ration Heater (IAV ORD)
- ✓ Unitized Group Rations
- ✓ Containerized Kitchen (FUE Jan 02)
- ✓ Multi-Temperature Refrigerated Container System (FUE Aug 05)

## **What's to be done**

- ➔ Identify changes in Army Field Feeding Policy as a result of transformation

# **FOOD SERVICE SUMMARY OF IBCT..**

- There are no cooks organic to the IBCT.
- Cooks belong to the CSSC that supports the IBCT.
- 103 Cooks and 1 Platoon Leader
- 6 Field Feeding teams.
- Equipped with latest enablers
  - **HEMTT-LHS (6)**
  - **Containerized Kitchen (Fielded Jan 02) (6)**
  - **MTV 5 Ton Cargo Truck (12)**
  - **KCLFF w HMMWV and High Mobility Trailer (20)**
  - **Refrigerated Container (currently single temperature 8x8x20...Future MTRCS 05/06.) (6)**
  - **Water Buffalo (will become Camel) (6)**
- Support via Configured Loads not Ration Break Points.

# FEEDING THE INTRIM AND OBJECTIVE FORCE

- THE FEEDING PLAN
- COORDINATION FOR SUBSISTENCE SUPPORT
- DESIGNING SUPPORT PACKAGE
- MANAGING THE SUPPORT TEAMS

# TRAINING TO SUPPORT NEW FEEDING MISSION

- IDENTIFY TRAINING NEEDS
- DEVELOP TRAINING PROGRAMS
- PROVIDE TRAINING
- EVALUATE TRAINING
- FEEDBACK (FROM THE FIELD)
